

# APPLICATION FOR WELL DRILLING PERMIT Private Drinking Water

<u>APPLICANT INFORMATION</u>	<u>LOCATION of WELL</u>
Name: _____	Address: _____
Address: _____ _____	_____
Phone: _____	Zoning District: _____

Pursuant to NC Senate Bill 676-S.L. 2011-255, a private drinking water well drilling permit will be granted within the Foxfire Corporate Limits under the following conditions: A site plan must be submitted with this application showing property boundaries, house and all out buildings, septic tank, drain field and the proposed well. The plan should show dimensions from the well to the house corner, septic system and property boundaries. A copy of the approved Moore County Well Permit application must accompany this application.

If the property on which the private well will be located is currently connected to the Village water system, then a back flow prevention device must be installed on the service line to the Village water system. The back flow prevention valve must be inspected on an annual basis by a certified back flow prevention technician and the test results must be presented to the Village Water Superintendent. Cross Connections between the private well and the municipal water system are expressly prohibited by law.

Prior to activating the private well, the Village Water Superintendent must inspect the well to ensure that there is no cross connection with the Village water system. In the event that the well becomes abandoned, the property owner must abandon the well properly and in accordance with all State and Village ordinances. If the applicant requests to reconnect to the Village water system, a fee will be charged at the rate listed on the Foxfire Village Fee schedule.

Questions regarding the application for a private drinking water well may be directed to the Foxfire Village Water Superintendent at 295-5107 x. 203
